

The background features a dark, almost black, field. In the upper left, there are several tropical leaves in shades of gold and yellow, including a large monstera leaf and a palm frond. A gold-colored frame with a beveled edge is centered on the page. The text 'ROCID' and 'METALLIC TILES' is centered within this frame. In the bottom left, there is a gold-colored decorative element with a repeating geometric pattern. In the bottom right, there is a gold-colored ornate scrollwork design.

Decoration by application

Mate/Matt

Rectificado /
Rectified (sharp edge)

Pasta blanca /
White body

Relieve / Relief

Satinado / Satin

Semipulido /
Semi-polished

GB - INSTRUCTIONS FOR INSTALLATION & CARE

WARNING:

Due to its special finish, take precautions when handling, pvd-coated parts must be treated with great care. Never stack the pieces.

PRECAUTIONS WHEN LAYING THE TILES:

- We recommend to use a rubber mallet for placement to avoid scratching the pieces. It is very important to remove the paste residues before they dry on the surface of the piece and avoid contact with adjacent parts at all costs.
- Use a slightly damp sponge to clean the tile joints with clean water passing it diagonally across them.
- Do not use abrasive, acidic or alkaline cleaning products, except for diluted ammonia. It is advisable to clean with neutral soap and once placed, with cleaning alcohol diluted with water.
- Metallic tiles must be handled with great care, in the event that any piece shows a fault, it must not be laid; the incident must be reported to your supplier.
- For the grouting material, it is recommended to use materials with a fine grain or controlled granulometry (CG-2 according to EN 13888) without additives.
- Before proceeding to lay the tiles, we recommend you to check the metallic effect. Claims will not be admitted once the tiles have been laid.
